

MOHAMED MAHMOUD ELSAYED

Full Stack Developer | PHP · Laravel · React.js

Mansoura, Egypt • 01034728855 • hello.mohamed@outlook.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

SUMMARY

Full Stack Developer with hands-on experience building complete web applications using PHP/Laravel on the back end and React.js on the front end. Skilled in designing REST APIs, structuring relational databases, and delivering responsive, production-ready interfaces. Comfortable working independently on freelance projects end-to-end, from requirements to deployment.

TECHNICAL SKILLS

Back End: PHP, Laravel, OOP, RESTful APIs

Front End: React.js, TypeScript, Tailwind CSS, Bootstrap, SASS

Database: MySQL — schema design, queries, optimization

Tools & Platforms: Git & GitHub, Node.js, WordPress

PROJECTS

Amazon-Style E-Commerce Platform — *React.js / Node.js*

Built a full-featured e-commerce application with shopping cart, checkout and payment integration, user authentication, and order management.

Shofy — Electronics Store — *React.js / Node.js*

Developed an e-commerce platform for electronics with cart, payment handling, authentication, and order tracking.

Admin Panel for Blog Platform — *PHP / MySQL*

Built an admin dashboard for managing blog content, with full create, edit, and delete functionality.

OnlineShope — Online Marketplace — *PHP / MySQL*

Developed a marketplace application supporting product management across a wide product catalog.

Personal Portfolio — *React.js / Node.js*

Designed and built a personal portfolio site showcasing projects and technical skills. Live at elhoot-web.github.io/Port.
